

ANNUAL REPORT 2014

ASSOCIATION OF PROFESSORS OF GYNECOLOGY AND OBSTETRICS (APGO)

www.apgo.org

2130 Priest Bridge Drive, Suite 7 | Crofton, MD 21114 | (410) 451-9560

MESSAGE FROM APGO PRESIDENT AMY (MEG) AUTRY, MD

As I finish my first several months in office as president, I want to thank Amy Young, MD for her leadership over the last two years and applaud her accomplishments. Specifically, she completed a successful capital campaign, raising \$1,000,000 for our Capstone Programs, including the Academic Scholars and Leaders Program, Surgical Education Scholars Program, and the Martin L. Stone, MD, Faculty Development Seminar. In addition, she strengthened our Electronic Resources Committee, created a searchable database with abstracts from our meetings, and an online *Obstetrics and Gynecology* supplement highlighting select articles and abstracts from our annual meeting. These are monumental accomplishments that are critical to our mission and membership. Thank you for all your hard work, Amy. Your shoes will be hard to fill.

As I embark on my two years as president, I have developed a slogan for my presidential priorities: **“Inclusive, Innovative, and International.”** I believe this phrase encompasses both my passions and those of our membership. For the **inclusive** piece, I have appointed Carol Major, MD to lead a Diversity Task Force charged with assuring that our leadership reflects our membership, and that we are welcoming as many people as possible to become involved in our organization.

With **innovation**, I really want to focus on developing products, particularly technological products, that are accessible and helpful to educators. We are completing a curriculum for learners in low-resource settings that will be accessible on our Web site by the annual meeting in March 2015. Helen Morgan, MD, from the University of Michigan, is developing videos for the APGO Medical Student Educational Objectives that will be available in the fall of 2015. Our Testing and Technology Committee,

led by Maya M. Hammoud, MD, has developed a Knowledge Assessment that can be used by incoming interns for the knowledge component of Milestone 1. Francis S. Nuthlapathy, MD is leading a team that is developing online resources for community educators to improve their teaching effectiveness. We will also continue to upgrade our Web site to make it easy to navigate and user-friendly.

On the **international** front, we want to make our resources widely available. Open access for our educational modules is now available. We continue to host international scholars at the Martin L. Stone, MD, Faculty Development Seminar. Our March meeting in San Antonio will include plenary speakers on global health, diversity and disparity, with Saturday, March 7th dedicated to breakout sessions on these topics.

We plan to continue our strong collaboration with CREOG, particularly in the area of surgical education and the Milestones, as well as Interprofessional Education. Finally, we want to ensure that we are meeting the needs of our constituents and continuing to grow in a meaningful way. We will embark on a strategic planning process to find the best direction and use of our time in areas of focus for the next five years.

Wow, that is a lot on our plate for the next two years! I look forward to the challenge and want to make sure that we are listening to your priorities. Please let me know your thoughts on our agenda and accomplishments thus far.

GOAL MET! WE REACHED \$1 MILLION!

We are pleased to announce that, with pledges, WE ACHIEVED OUR \$1,000,000 GOAL! Thank you to all APGO members and friends who participated in the 50th Anniversary Capital Campaign. One-hundred percent of the funds donated will be reinvested in APGO's four Capstone Programs - the Martin L. Stone, MD, Faculty Development Seminar, the Clerkship Directors' School, the Surgical Education Scholars Program and the Academic Scholars and Leaders Program - and help sustain them for the next ten years.

Congratulations to the winners of the ASL Challenge! Cheers to the ASL Class of 2005 for raising the most money (\$19,659) and the ASL Class of 2011 for having the highest percent participation (79% of class graduates donated).

Because of an incredibly involved and dedicated membership and a successful investment strategy, we met our goal! Susan M. Cox, MD, and her husband, Doug Morris pledged to extend their endowment of the President's Breakfast at the APGO Martin L. Stone, MD, Faculty Development Seminar, and this donation put us over the top! Thank you to everyone who made a personal commitment to support the Capital Campaign.

APGO 2014 MEDICAL EDUCATION ENDOWMENT FUND GRANT RECIPIENTS

The following projects were selected to receive grants as part of the 2014 APGO Medical Education Endowment Fund Grant Program. The program was established in 2009 to provide financial support to stimulate research and innovations in health science education and fund projects which strive to improve women's health education through innovative approaches.

Boston University School of Medicine

Principal Investigator: Jodi Abbott, MD
Project Title: *Root Cause Analysis and Open Disclosure in Obstetrics and Gynecology: An Integrated Simulation-Based Module to Teach and Assess Best Practice Components*

Florida International University

Principal Investigator: Carla Lupi, MD
Project Title: *Furthering the Validity of a Tool to Assess Non-Directive Pregnancy Options Counseling Skills*

University of Michigan

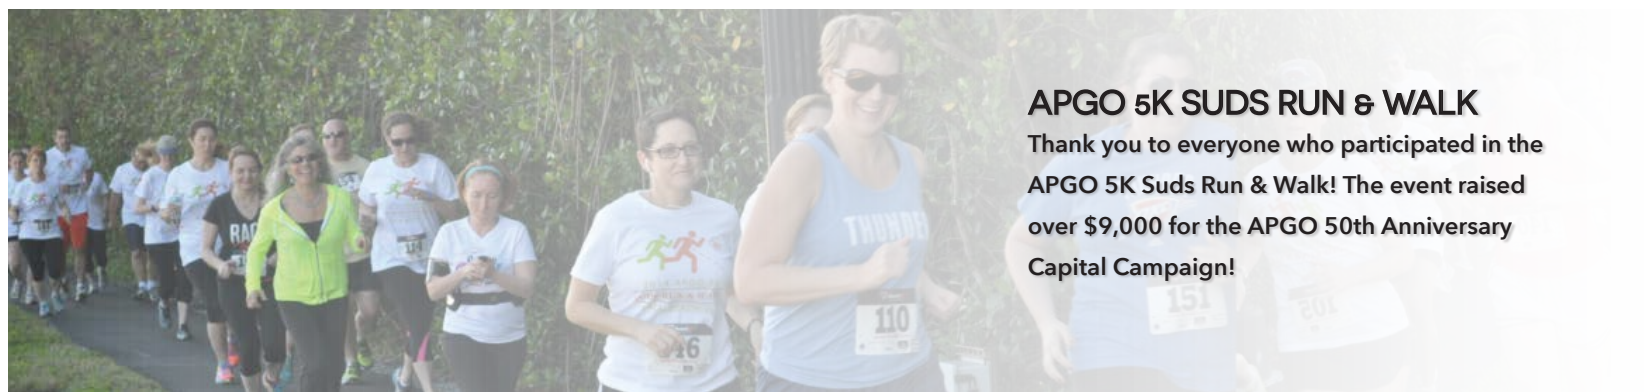

Principal Investigator: Helen Morgan, MD
Project Title: *Companion Instructional Videos to the APGO Medical Student Objectives (10th ed.)*

ENDOWMENTS

Name(s)	Event
Susan M. Cox, MD and Doug Morris	Susan M. Cox, MD and Doug Morris Breakfast, APGO Martin L. Stone, MD, Faculty Development Seminar
Warren H. Pearse, MD	Warren H. Pearse, MD Lectureship
Martin L. Pernoll, MD	Martin L. Pernoll, MD Lectureship
Nancy and Martin L. Stone, MD	APGO Martin L. Stone, MD, Faculty Development Seminar
Frank Stritter, PhD	APGO Academic Scholars and Leaders Program (General Fund)
Amy Young, MD and Charles Shumaker	APGO Academic Scholars and Leaders Program (Class of 2000)

APGO 5K SUDS RUN & WALK

Thank you to everyone who participated in the APGO 5K Suds Run & Walk! The event raised over \$9,000 for the APGO 50th Anniversary Capital Campaign!

APGO TASK FORCE NEWS

APGO DIVERSITY AND INCLUSION TASK FORCE

The APGO Diversity and Inclusion Task Force was created to develop a forum for supporting APGO with its diversity and inclusion efforts. The task force will identify ways to engage under-represented groups in leadership roles in our organization; develop recommendations to allow broader participation of all our members in programs, activities, and leadership roles; and provide recommendations for the development of resources related to cultural competency. In addition, the task force will propose ways to increase APGO minority membership and develop tools to help member departments improve their diversity recruitment efforts. During the past year, members of the task force developed an official APGO Diversity Statement for Volunteer and Leadership Positions which will allow broader participation of all APGO members in programs, activities and leadership roles. This statement was approved by the APGO Board and is posted on the APGO Web site.

Members of the task force include: **Carol A. Major, MD, Chair**, Ruben Alvero, MD, Adrienne Dade, MD, Eduardo Lara-Torre, MD, and Maggie Vill, MD

GLOBAL WOMEN'S HEALTH TASK FORCE

The APGO Global Women's Health Task Force was created to develop a strategic plan for global health that aligns with the educational mission of APGO. During the past year, the task force has been working to create objectives and guidelines for learners in global health settings, as well as develop a repository of responsible global health opportunities for learners. Task force members will also work with other professional organizations to identify areas of collaboration to further global health outreach and education. Materials will be posted on the APGO Web site in March 2015.

Members of the task force include: **Susan Raine, MD, JD, LLM, MEd, Chair**, Amy (Meg) Autry, MD, Chi Chiung Grace Chen, MD, Anne Dougherty, MD, Margaret Larkins-Pettigrew, MD, MeD, MPPM, and Saifuddin Mama, MD, MPH

APGO TASK FORCE ON EDUCATIONAL SCHOLARSHIP

The APGO Task Force on Educational Scholarship serves as an oversight group to ensure high-quality educational research manuscripts are submitted to the educational supplement of *Obstetrics and Gynecology*. During the past year, new policies and procedures were put into place for the call for abstracts and the manuscript submission process for the CREOG & APGO Annual Meeting. Selected abstracts and manuscripts from the 2015 CREOG & APGO Annual Meeting will be published in the educational supplement of *Obstetrics and Gynecology* in the fall of 2015.

Members of the task force include: **Amy E. Young, MD, Chair**, John L. Dalrymple, MD, Gary Frishman, MD, Rebecca Jackson, MD, Nadine T. Katz, MD, Lee A. Learman, MD, PhD, Michael Moxley, MD, Roger Smith, MD, Steven Swift, MD, and Patrice M. Weiss, MD

CAPSTONE TASK FORCE

The Capstone Task Force Program was formed for the purpose of reviewing, improving and ensuring the future of APGO's most valuable member education programs.

Members of the task force include: **Susan M. Cox, MD, Chair**, Amy (Meg) Autry, MD, Lorraine Dugoff, MD, John R. Fischer, MD, Robert F. Flora, MD, MBA, MPH, and Bruce A. Meyer, MD, MBA

LEADERS, EDUCATORS, ADVISORS AND PROMOTERS (LEAP) TASK FORCE

During the past year, the members of the LEAP Task Force created a model for cost-effective decentralized faculty development for ob-gyn educators to enhance their teaching effectiveness and engage them in the community of medical educators. A series of five online CME educational modules will be available on the APGO Web site in the spring of 2015. The five module topics are: Teaching in the Ambulatory Setting, Teaching in the Operating Room, Providing Educational Feedback, Effectively Evaluating your Learner, and Dealing with the Challenging Learner.

Members of the task force include: **Francis S. Nuthalapaty, MD, Chair**, Susanne Bush, MD, Julie DeCesare, MD, Mac Ernest, MD, Susan Goldsmith, MD, Peter S. Marcus, MD, MA, Archana Pradhan, MD, MPH, and Peter Schnatz, DO

ACADEMIC LEADERS AND SCHOLARS ADVISORY TASK FORCE

This task force selects the 20 program scholars each August, plans the 15-month program, appoints faculty, mentors scholars, and attends the scholar graduation and all scholar social functions.

Members of the task force include: **Lee A. Learman, MD, PhD, Chair**, John L. Dalrymple, MD, Debra DaRosa, PhD, Sonya S. Erickson, MD, Alice R. Goepfert, MD, Nancy A. Hueppchen, MD, MSc, and Frank Stritter, PhD

SURGICAL EDUCATION SCHOLARS (SES) TASK FORCE

The SES Program Task Force has developed APGO's newest member education program. The 18-month course will teach ob-gyn faculty how to develop and implement surgical education curricula at their home institution. The first course will be held September 2014.

Members of the task force include: **John F. Fischer, MD, Co-Chair**, **Robert F. Flora, MD, MBA, MPH, Co-Chair**, Ted Anderson, MD, PhD, John L. Dalrymple, MD, Magdy Milad, MD, MS, Arthur Ollendorff, MD, Carmen Sultana, MD, and Steven Swift, MD

APGO COMMITTEE NEWS

UNDERGRADUATE MEDICAL EDUCATION COMMITTEE (UMEC) REPORT

FROM UMEC CHAIR JOHN L. DALRYMPLE, MD

What a year it's been! When I assumed the position as UMEC chair this past March, I knew I was in for a ride – but what I didn't know was how amazing it would be. The opportunity to lead such a highly-productive and talented group of individuals has turned out to be a real highlight of my life. This year was a year of transition and, already, a year of high productivity. After serving on UMEC for the past six years, it was especially difficult to say good-bye to those UMEC members who rotated off the committee. A very special thank you to Nancy A. Hueppchen, MD, MSc, for her past two years of service as UMEC chair, and for turning over a team of individuals who were primed and ready to continue their hard work, productivity and creativity. For the senior members who also rotated off, a very heartfelt thanks and gratitude for their past six years of hard work and service to UMEC and APGO: Alice W. Chuang, MD, Lorraine Dugoff, MD, and Amie J. Cullimore, MD, MSc, BEd. I should also acknowledge the transition of our ACOOG representatives, with a big "Thank You" for the dedication and contributions of Joseph Kaczmarczyk, DO, MPH (rotated off 2013), and welcome David Forstein, DO, Greenville Hospital System. We also welcome four additional UMEC members: LaTasha B. Craig, MD, University of Oklahoma; Scott C. Graziano, MD, MS, Loyola University; Margaret L. McKenzie, MD, Cleveland Clinic; and APOG Representative M. Laura Hopkins, MD, University of Ottawa. These new members hit the ground running, and have already made substantial contributions to UMEC and APGO.

This past year, I am pleased to announce that UMEC has continued to live up to its reputation of high productivity and creativity. Our major activities include organizing and implementing the APGO Martin L. Stone, MD, Faculty Development Seminar, contributing to the CREOG & APGO Annual Meeting, and planning and delivering the Clerkship Directors' School (Parts 101, 201 and 301). In addition, we are involved in several ongoing projects aimed at developing and updating current APGO educational tools, resources and products.

Recent Updates and Accomplishments

UMEC has been hard at work this year and I'm proud to announce the completion of several projects, including:

- The 10th Edition of the APGO Medical Student Educational Objectives. This online version (no longer in print form) includes a NEW interactive component, with a search function by hot topic, objective or keyword and the capability to build a personalized curriculum online. Additional features include the addition of six new Osteopathic Medicine Objectives, mapping of the Objectives to APGO Electronic Resources and Hot Topics such as advocacy, pharmacology, global health, ethics and more.

- Additional updated online educational resources, including:
 - Online Teaching Cases (linked to the Educational Objectives)
 - *Comprehensive Women's Health Care: A Career in Ob-Gyn*
 - *The Obstetrics and Gynecology Clerkship: Your Guide to Success*
 - Teaching Tips
 - *Student Logbook* (coming soon)
- Two new Effective Preceptor Series pamphlets (added to the ten updated last year), including: "Effective Operating Room Teaching" and "Using the Electronic Medical Record to Precept Medical Students."
- Preparing and publishing an annual Obstetrics and Gynecology Journal Watch in *Teaching in Learning in Medicine* (Journal watch from the Alliance for Clinical Education: Annual Review of Medical Education Articles in Obstetrics and Gynecology, 2012.) *Teach Learn Med.* 2014;26(2):204-8.
- Ongoing development of several additional "To The Point" series articles which are nearing completion and/or have been submitted for publication, on topics including patient safety, teaching in the operating room, and the electronic medical record.
- Additional activities include ongoing contribution of articles to the APGO e-Bulletin, with a new theme: "Be Involved. Be Connected. Be Inspired."
- Representation on the Alliance for Clinical Education (ACE) Executive Committee, with UMEC members on the Publications, Communications and Research committees. UMEC also has continued representation on the APGO Electronic Resources Committee.

All told, UMEC continues to be highly productive, and I am deeply honored to be leading such an accomplished group of dedicated individuals.

This coming year, we look forward to accepting applications for next year's cycle of new members. Finally, I want to extend our sincerest gratitude to Donna Wachter and the entire APGO staff for all of their never-ending support. Without their help, UMEC could not function and accomplish all of these tasks and projects. It's been a great year, and we are looking forward to another exciting year to come.

APGO ELECTRONIC RESOURCES COMMITTEE

During the past year, the committee updated the APGO Residency Directory, created an online Catalog of Abstracts, reviewed online grant funded program materials, and online educational resources for accuracy. In May 2014, the newly revised APGO Residency Directory was launched. This online resource was improved to make the data easier to update by residency programs, and the search function was enhanced to make it easier to find specific information. The newly created APGO Catalog of Abstracts now houses all of the oral and poster abstracts presented from the 2012-2014 CREOG & APGO Annual Meetings.

Members of the committee include:

Alice R. Goepfert, MD, Chair, Seine Chiang, MD, Julie Covarrubias, EdD, Rupa DeSilva, MD, Lydia Nightingale, MD, Roger Smith, MD, Abigail Winkel, MD, and Abigail Wolf, MD

APGO TESTING AND TECHNOLOGY COMMITTEE

The APGO Testing and Technology Committee meets each July to review questions from the APGO Undergraduate Web-Based Interactive Self-Evaluation (uWISE) to ensure that they comply with current medical guidelines and recommendations. This year, the Committee also developed an online, interactive self-assessment exam based on Milestone 1 called the Preparation for Residency Knowledge Assessment Tool. The 100-question test addresses topics in obstetrics, office practice and gynecology. The test was launched in January and is now available to all residency programs and schools as part of a uWISE subscription, or can be purchased as a stand-alone subscription. The exam is intended for use by students entering their first year of residency and is a great resource for assessing the knowledge of students participating in an ob-gyn boot camp.

Member so of the task force include:

Maya M. Hammoud, MD, Chair, Susan M. Cox, MD, John L. Dalrymple, MD, Lorraine Dugoff, MD, and David Marzano, MD

DEVELOPMENT COMMITTEE

The Development Committee provides grants for new project initiatives, raises unrestricted funds for identified projects and spearheads activities with the APGO Corporate Liaison Council (CLC).

Members of the task force nclude: **John F. Fischer, MD, Chair**, Amy (Meg) Autry, MD, Robert F. Flora, MD, MBA, MPH, Maya M. Hammoud, MD, Nadine T. Katz, MD, Bruce A. Meyer, MD, MBA, Hope A. Ricciotti, MD, and Steven Swift, MD

APGO MEETINGS & PROGRAMS

Faculty Development Seminar

The 2014 APGO Martin L. Stone, MD, Faculty Development Seminar, “The Path to Wellness: A Medical Education Checkup,” was held January 11-14, 2014, at the Eau Palm Beach in Manalapan, Florida. Organized by the APGO Undergraduate Medical Education Committee under the direction of Program Co-Chairs Loraine Dugoff, MD, Archana Pradhan, MD, MPH, and B. Star Hampton, MD, this meeting is intended for physician educators who teach medical students and residents in obstetrics and gynecology and women’s health. The seminar is designed to provide both personal and professional development and serve as an opportunity for attendees to network with other like-minded women’s health educators. Keynote speakers included, Charles J. Hatem, MD, as the Martin L. Pernoll, MD, Educator, panel discussion with Debra A. DaRosa, PhD, Anna T. Cianciolo, PhD, Martin V. Pusic, MD, MA and Ann E. Burke, MD, Michael R. Foley, MD, and Ryan D. Madanick, MD. The Susan M. Cox, MD and Doug Morris President’s breakfast session was delivered by Amy E. Young, MD, and, the Lunchtime Learning Session was presented by Eva Archer-Smith, who discussed work-life balance. Other topics throughout the program included career development, educational scholarship, Milestones, social media and the medical educator. Thirty workshops submitted through the call for abstracts were integrated into the three-day program as small workshop and round table sessions. During the meeting, the 2014 William N.P. Herbert, MD, Promising Educator Award was presented to Lydia Nightingale, MD, of the University of Oklahoma. Each year, attendees come away feeling recharged about medical education, armed with new ideas and approaches to teaching students about women’s health.

CREOG & APGO Annual Meeting

The 2014 CREOG & APGO Annual Meeting, Signs of Progress in Women’s Health Education, was held February 26 - March 1, 2014, at the Hyatt Regency in Atlanta, Georgia. Sonya S. Erickson, MD and Mark B. Woodland, MA, MD, served as the program co-chairs. The Warren H. Pearse, MD, Lecture titled, “Promoting Excellence in the Clinical Learning Environment,” was presented by Diane M. Hartmann, MD. Additional keynote addresses integrated into the three-day program included, “Creating a Continuum of Learning for the 21st Century Physician,” by Carol A. Aschenbrener, MD; “The New CME: Rewarding Faculty and Improving Performance

and Outcomes,” by Ronald S. Gibbs, MD; and, the Saturday morning session focused on “Milestones Implementation: Opportunities and Challenges.” The 2014 meeting format included a special breakfast session for residents and medical students, a Book Club session, a Tech Talk session, and a Fellowship Coordinators afternoon session. Additionally, a Saturday afternoon workshop sponsored by CREOG & APGO on Emerging Technologies covered the fundamentals of a standardized robotic education curriculum.

The APGO UMEC planned several sessions throughout the annual meeting program, including two breakfast sessions: “From Conception to Delivery: Getting Your Education Idea to Publication,” and “Team Building: Zoom In Zoom Out: Envisioning Your Education Team.” Breakout sessions included, “Professional Identity Formation,” “Focus on Solution: EMR in the Medical Student Curriculum” and “Joint Challenges: Areas of Overlap with the LCME and ACGME.”

We would like to thank Hologic for their support of our meeting, and for promoting successful women’s health education programs.

Clerkship Directors’ School

The APGO Clerkship Directors’ School is designed for clerkship directors of all experience levels and consists of three parts. Parts 101 and 201 of the school are held during the APGO Martin L. Stone, MD, Faculty Development Seminar in January each year, and Part 301 is held during the CREOG & APGO Annual Meeting each year. The 2014 advanced 301 course, “Reading the Signs: Staying Ahead of the Curve on the Ob-Gyn Clerkship,” was held during the CREOG & APGO Annual Meeting on February 26, 2014. This half-day program provides an opportunity for clerkship coordinators and directors to meet jointly during a special lunchtime session and cover areas of interest to physicians and their coordinators. The Clerkship Directors’ School is also ideal for those faculty who are considering becoming a clerkship director in the near future. All sessions include a combination of short plenary sessions, special focus topics, round table discussions, and small and large group interactive sessions. Each year, UMEC is charged with developing the curriculum for all three parts, ensuring that both the basic foundational elements of the clerkship and new, innovative approaches to the clerkship are covered well. A certificate of completion is issued to attendees who complete all three sections of the school within a three-year period.

The 2014 William N.P. Herbert, MD, Promising Educator Award was presented to Lydia Nightingale, MD, of the University of Oklahoma.

Sonya S. Erickson, MD, and Mark B. Woodland, MS, MD, CREOG & APGO Annual Meeting program co-chairs.

The 2014 APGO Lifetime Achievement Award was presented to Susan M. Cox, MD, of the University of Texas Southwestern Medical School.

APGO SCHOLARS & SCHOLARSHIPS

APGO ACADEMIC SCHOLARS AND LEADERS PROGRAM

The APGO Academic Scholars and Leaders Program (ASL) advances education in ob-gyn by providing physician faculty with the skills and knowledge necessary to be outstanding teachers. The 2015 graduating class met in August 2014 at the Westin Hotel in Annapolis, MD for the last of their educational sessions before graduating in March 2015. Graduating scholars will present their projects as posters at the 2015 CREOG & APGO Annual Meeting in San Antonio, TX.

APGO ELECTROSURGERY SCHOLARS PROGRAM

The 2012-2014 class of the APGO Electrosurgery Scholars Program: Innovations and Applications in Gynecologic Electrosurgery also graduated this year at the CREOG & APGO Awards and Graduation Luncheon. For a complete list of graduates, visit www.apgo.org.

APGO INTERNATIONAL SCHOLARSHIP

As part of APGO's commitment to actively engage international ob-gyn educators, the APGO International Scholarship enables international attendees to participate in the APGO Martin L. Stone, MD, Faculty Development Seminar (FDS). A stipend of up to \$5,000 is paid to the sponsoring member department to help defray the awardee's costs associated with this scholarship. This 2014 APGO International Scholarship recipient was Christophe Millien, MD, University Hospital, Mirebalais, Haiti. He was nominated by Paul Hendessi, MD, Boston University School of Medicine.

NOTABLE APGO EVENTS

Nausea and Vomiting of Pregnancy Module: US and Canadian Information Campaign

Updated in 2013, the “APGO Nausea and Vomiting of Pregnancy” module was created for ob-gyn educators to use when teaching medical students and residents the effect of NVP on the outcome of pregnancies and how to institute appropriate management strategies. In early 2014, APGO launched an information campaign by sending flyers to over 100,000 women’s healthcare providers across the US and Canada. Both the information campaign and the development of this module were funded by an unrestricted educational grant from Duchesnay.

Diagnosis and Management of Endometriosis: Pathophysiology to Practice CME Extended

An extension was granted enabling APGO members and subscribers to

earn CMEs for the “APGO Diagnosis and Management of Endometriosis: Pathophysiology to Practice” online educational module through May 2016.

Contraception: Patient Counseling and Management Module Update

In 2014, APGO updated the online educational module “Contraception: Patient Counseling and Management.” This module reviews the methods of contraception currently available in the US, including the contraindications, risks/benefits, and non-contraceptive health benefits of each method. Information on counseling patients, as well as the unintended pregnancy rates for birth control methods, are also included. APGO plans to launch the updated companion teaching slides and case studies in the spring of 2015. This module update was sponsored by an unrestricted educational grant from Bayer HealthCare Pharmaceuticals and Afaxys.

APGO Corporate Liaison Council (CLC) Update

APGO leaders and industry partners participated in their annual meeting and networking events in August of 2013 and February 2014. They had one-on-one meetings with the APGO Board of Directors and formally reviewed the APGO online educational module for medical students and their faculty titled, “Interactions with Industry: A Medical Student Guide.” The updated module is scheduled to launch in the fall of 2014.

APGO TREASURER'S REPORT

Robert F. Flora, MD, MBA, MPH, APGO Secretary-Treasurer

My term as Secretary-Treasurer will end this March after the annual meeting. It has been my honor and pleasure to serve for the past three years. Due to the work of many, the organization has seen an increase in net assets

from \$4,637,817 to \$5,617,942 - a 21% increase. Maya M. Hammoud, MD will succeed me, and we have worked together this past year for a smooth transition. I am confident that she will ensure that our funds are managed appropriately and allocated to further support APGO's mission.

The Capstone Fundraising Campaign met its \$1,000,000 goal with pledges that will be received in the next fiscal year. Fundraising is a vital component for all non-profit associations to be successful and to ensure continued growth. The APGO Development Committee established a new fundraising campaign called Make a Difference. I encourage you to continue to make a difference by supporting this effort to support APGO's mission to advance women's health care through education. The success of our campaigns is solely attributed to our members' efforts. We thank you for your support.

Finally, I would like to thank Doctors John Gianopoulos, Amy Young and Meg Autry who supported me during their APGO presidential terms. Donna Wachter and her team also deserve special kudos. They truly are the engine that drives APGO. Without their support and patience APGO wouldn't be where it is today. Continue your great work as an organization and "Inspire, Instruct, and Develop."
