#	COMMENTS FOR SESSION 10:	DATE
1	I really do wish that we had been able to do this i person but I think that the interactive components were great and I wish we could have done more of that. In terms of the presentation, the information sometimes felt rushed and I think it would have been nice to dive in just a little more.	1/7/2022 10:04 AM
2	Understanding that this is the first year to do zoom, consideration would be to give people more time in breakout rooms. By the time we all enter the zoom room and introduce ourselves, it seemed like half our time was gone. There also did not seem to be enough time to truly process information as we seemed to be speeding through everything. More time in small groups with individual mentors to guide the groups would be appreciated - however, I understand that it is not possible to get faculty to do so.	1/7/2022 8:50 AM
3	Despite having to hold the session virtually, it was engaging and informative. I appreciate the mental imaging exercise to promote remembering the curriculum structure.	1/7/2022 8:41 AM
4	Excellent workshop and organization of small groups.	1/7/2022 8:36 AM
5	Terrific start to the program. Lots of useful information for a step-by-step, deliberate process to develop curriculum. I especially enjoyed the opportunity to network, discuss ideas and receive feedback from participants who were also focused on medical student/clerkship/UME to GME transition work. It was a high energy, high yield activity. It's great to be a part of something where everyone is so engaged.	1/6/2022 9:47 PM
6	Loved all of it, so well presented and interactive	1/6/2022 6:20 PM
7	Good teaching style - in that she taught both process and content. Addressed needs of the learners and gave helpful examples	1/6/2022 4:41 PM
8	- very helpful to have list of action verbs for objective making - so good to be reminded of the importance of assessment, use of eval in design not just for feedback - appreciated group activities - writing specific objectives - we initially went too broad but then narrowed and that helped us be more specific; curriculum design - this was great, though I was not entirely sure if it had to be something new (I used something that I'm trying to work on) - still a little awkward to do group work bc we're virtual and didn't get to meet everyone yesterday	1/6/2022 4:09 PM
9	The curriculum report card was humbling, but so useful to know about as a guide BEFORE I create my next curriculum. Thank you for making the material engaging even through Zoom!	1/6/2022 3:20 PM

APGO Scholars and Leaders January 2022 Virtual Session Evaluations-Day 1-Thursday

10	Excellent session! I definitely learned a lot and the curriculum planning workbook provides a very helpful organization structure to think about the develop a curriculum.	1/6/2022 3:19 PM
11	I really enjoyed the curriculum development article and opportunity for peer feedback.	1/6/2022 3:14 PM
12	This is a topic that I'm super interested in career-wise, but have zero training in and have found very overwhelming. The background info was really helpful, but the application was really the key here. It was nicely balanced, though, and I wouldn't change the ratio of info dissemination and info application. If possible, would be great to have some example curriculums (curriculi?) to see how they were done in the supplemental materials but not necessary since we got the chance to work in small groups for feedback on our creations.	1/6/2022 3:07 PM
13	Breakout sessions worked well. Happy to be able to work with material and with colleagues in real time.	1/6/2022 3:06 PM
14	Very useful session -- I found the small group discussions and especially the time to work on my own curriculum extremely helpful.	1/6/2022 3:05 PM
15	I liked that we didn't sit at the screen watching powerpoint slides the whole time. Deb kept us moving to breakout rooms and engaged in different activities and I liked the amount of time we spent collaborating with new colleagues. The curriculum framework activity was phenomenal!	1/6/2022 3:05 PM
16	The session was great for organizing my approach for curriculum development.	1/6/2022 3:04 PM
17	Great first day. Pushes accountability for us tending to the basics of this educational process. Sometimes to get so into the weeds, it's so great to come back to the intention and execution of the goals and objectives. LOVED the embedded time allotted to us working on our curriculum proposals. That single gesture was so powerful at really being unencumbered by anything else but that task and really helped us pour into it for an hour and do something really productive. The feedback from colleagues was also invaluable and being able to give others feedback gave me some confidence that I belong in this collection of smarty pants colleagues ;)	1/6/2022 2:58 PM
18	I already had a pretty strong foundation this material but the review was useful overall.	1/6/2022 1:03 PM

#	RESPONSES	DATE
1	Very useful and helped me critically evaluate my own curriculum	1/7/2022 10:22 AM
2	Pre-reading from the field of OB/GYN - such as some of the needs assessments that we googled - would be helpful.	1/7/2022 8:50 AM
3	Amount of time selected was perfect over Zoom, not overwhelming. 30 min break was much appreciated.	1/7/2022 8:41 AM
4	Appreciated the structured assignment time to work independent and to share with the group. I think the amount of time spent/length of day was just right given the Zoom environment. I might have been able to do 1 more hour, but that is about it.	1/6/2022 9:47 PM
5	coordination of breakout rooms - breaking out & returning - is very smooth, thank you!	1/6/2022 4:09 PM
6	So helpful to have the time to work on this!!	1/6/2022 3:43 PM
7	I was worried about the virtual format, but appreciate that sessions are no longer than 5 hours (5 is pretty much the limit for me already). Having independent time to work on a project was invaluable - I accomplished so much in that 1 hour!	1/6/2022 3:20 PM
8	Excellent session!	1/6/2022 3:19 PM
9	Excellent session. So helpful !	1/6/2022 3:09 PM
10	Thanks for all you did to make this meeting virtual, I am sure it wasnt easy!	1/6/2022 3:05 PM
11	Thanks a ton - great day. So grateful to be here.	1/6/2022 2:58 PM
12	Zoom for this many hours is difficult, I am having trouble staying fully focused but I am not sure that I would increase/decrease the timing regardless since I understand there is a ton of material to get through in a finite number of days.	1/6/2022 1:03 PM
