#	COMMENTS FOR SESSION 1:	DATE
1	Amazing workout session and interaction. Thank you for choosing this book. it is very insightful	1/10/2025 8:12 AM
2	Would be nice to have some take home summary document that is easy to refer back to. It was great to listen to everyone, and everyone became more expert in their specific chapter, but without reading and taking notes on the whole chapter it still feels a bit challenging/far away to really implement. If we had a take home document that highlighted the key points it would be helpful.	1/10/2025 8:11 AM
3	The description on the syllabus was unclear regarding what we would be presenting- the information from the chapter versus a mock didactic session using the concepts from the chapter. This was a great session overall and I intend to read/listen to this book in it's entirety. Pat is clearly very knowledgable and the teaching method was effective.	1/10/2025 8:10 AM
4	I loved the way the hours flew by in this session by having us teach each other. This helped us get to know each other and challenged us to collaboratively use our education skills. i loved this book and am so glad I was introduced to it in ASL. I plan to come back to this book often in my career.	1/10/2025 8:09 AM
5	I enjoyed the Lego session and want to implement it in my residents as teachers to highlight importance of clear vs unclear instructions. The how learning works resource is very useful and I want to read the entire book.	1/10/2025 8:09 AM
6	I really enjoyed Session One and the content. Dr O'Sullivan found a way for us to really engage with the material. Because we all come at it from the OBGYN educator standpoint, every group provided tangible examples of how to put some of the principles to work in the clinical context. Really fabulous.	1/10/2025 8:09 AM
7	Loved the active learning technique for this. Made me a little uncomfortable at first but I truly saw the value and got so much more out of the session than had it been didactic.	1/10/2025 8:09 AM
8	engaging and insightful	1/10/2025 8:08 AM
9	Really enjoyed Pat. Would love to hear a little bit more from her, advice about different chapters and tid bits as we went through. Her experience is very apparent and valued.	1/10/2025 8:08 AM

APGO Scholars and Leaders January 2025 Session Evaluations-Day 1-Thursday

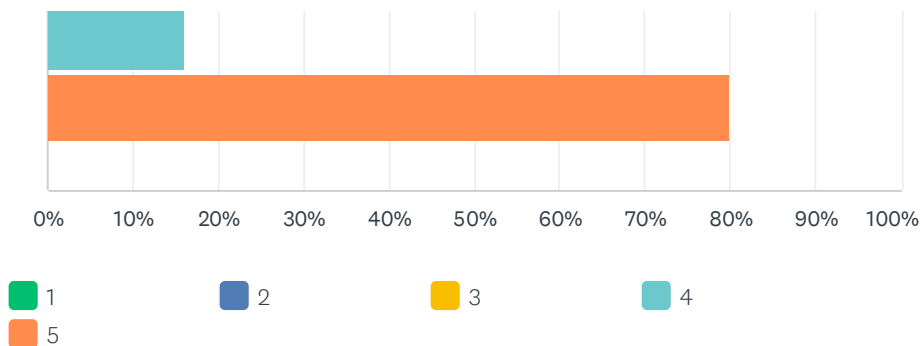

10	Excellent resource, can't wait to read the rest of the book	1/10/2025 8:07 AM
11	Great framework for everything we do as educators	1/10/2025 8:07 AM
12	I love the interactive nature of the content. I think about learning along my journey and what moments have stuck with me and this will be one of them.	1/10/2025 8:06 AM
13	excellent, engaging way to review the book's material	1/10/2025 8:06 AM
14	Great to have Ed PhD teach and model	1/10/2025 6:20 AM
15	Extremely helpful.	1/9/2025 5:44 PM
16	Very interactive. Loved this. Thinking about taking lego activity back to our faculty	1/9/2025 4:04 PM

Q3 Thursday, January 9, 2025: Session # 2 - Literature Reviews in Medical Education-SteinauerSession Evaluation Form

#	COMMENTS FOR SESSION 2:	DATE
1	The hands on was crucial, especially for this topic. thank you	1/10/2025 8:12 AM
2	Very helpful. Appreciated the balance between speaker presenting and us working on our own.	1/10/2025 8:11 AM
3	As someone who is very inexperienced with literature reviews, it felt like it moved very fast. I would have liked a little more time to navigate the various resources as a group.	1/10/2025 8:10 AM
4	This session on reviews taught me new skills and gave me new resources in literature reviews in medical education. I had never heard of BEME before and have now bookmarked it and plan to continue to explore it in my career.	1/10/2025 8:09 AM
5	Very helpful session and feel that the timing of it being on first day was ideal as it helped hone ideas for EAP	1/10/2025 8:09 AM
6	I haven't been exposed to systematic reviews, so I learned a lot. I also learned how to improve my search in pubmed. It was helpful to make it relevant to researching my EAP. If anything it would have been nice to have another advisor going around helping people with their searches since Dr Steinhauer did not make it to everyone.	1/10/2025 8:09 AM
7	This really got the wheels turning about my Education Project. I was able to make some headway in the start of my literature search and start to solidify what I want my project to look like.	1/10/2025 8:09 AM
8	the screen was hard to read due to very small print. The session would have been abbreviated a bit in the end. The afternoon sessions are harder to stay still for and the online searches portion seemed drawn out.	1/10/2025 8:08 AM
9	Very helpful as someone who has not done a lot of research.	1/10/2025 8:08 AM
10	Very helpful; provided both a big-picture view of literature reviews and detailed, practical help in searching the literature	1/10/2025 8:07 AM
11	Learned a lot of tips for lit searches!	1/10/2025 8:07 AM
12	I thought this was very helpful. I would love designated time to go through the use of Endnote or Mendely.	1/10/2025 8:06 AM

APGO Scholars and Leaders January 2025 Session Evaluations-Day 1-Thursday

13	It was somewhat of a dense topic for an afternoon session. But I appreciate the facilitator keeping the session interactive. I think the best part of the session was learning about useful resources to perform literature search.	1/10/2025 8:05 AM
14	Good learning skills for research. Would be nice to have med librarian to meet with at same session. Pre reading materials dense- 1 article on why med ed lit searches so hard would have been sufficient	1/10/2025 6:20 AM
15	I would have appreciated perhaps a different order- maybe literature search first, then different types of med Ed research endeavors, then a review of reviews as method of scholarship. I do think that a pre-session material that was more basic/rudimentary in explaining the different reviews are would have made the session less overwhelming and confusing.	1/9/2025 8:10 PM
16	Seemed a little long and could have been shortened at the end.	1/9/2025 5:44 PM
17	Super practical info and very helpful--makes me love my librarian even more!!	1/9/2025 4:04 PM

Q5 Additional comments for the ASL Program:

Answered: 12 Skipped: 13

#	RESPONSES	DATE
1	For both Thursday and Friday, may be helpful to finish an hour early and do those two hours on one of the FDS days	1/10/2025 9:15 PM
2	Thank you for such great work; location, conference room, food, and flexibility with timing	1/10/2025 8:12 AM
3	I am so humbled and happy to be here. This is such a valuable program to learn and proactively plan with likeminded educational leaders in Ob/Gyn.	1/10/2025 8:09 AM
4	Please have better vegetarian lunch options. Beverages at lunch like sodas or tea would also be nice	1/10/2025 8:09 AM
5	The food and snacks are great!	1/10/2025 8:09 AM
6	It would be nice to have some beverage options (sparkling water, coke, diet coke) for lunch!	1/10/2025 8:09 AM
7	Can we do a session or two outside on the patio where we ate lunch? Its so pleasant out there and room is a little cold.	1/10/2025 8:09 AM
8	Would enjoy even shorter lunch breaks to get done early (30-45mins?)	1/10/2025 8:08 AM
9	Great so far. I wish there was more opportunity for outdoor learning but I am not sure that would be feasible.	1/10/2025 8:06 AM
10	excellent attention to detail through (even down to mixing up who we sit at the tables in the morning)	1/10/2025 8:06 AM
11	Appreciate the content. To hold session in HI all day with no windows was a lot	1/10/2025 6:20 AM
12	It would be nice to have an option for the textbooks provided to be in digital form instead of paper. I rarely read paper anymore and I take notes on my computer when I do read for work/development, so I think many of us would have liked the option for digital files for the books.	1/10/2025 4:48 AM
