1	Great session that introduced crucial influence and application to problems in med education.	8/1/2025 7:52 PM
2	So useful and necessary	8/1/2025 11:25 AM
3	Excellent.	8/1/2025 11:10 AM
4	Very engaging (as always), good interactive component, appropriate timing for breakout sessions	8/1/2025 7:51 AM
5	Some more time to troubleshoot the difficulties with real med-ed examples would be helpful (especially around concepts like 200% accountability)	7/31/2025 6:37 PM
6	I really liked this session/content. May have been a little more helpful if the "expert" groups taught their chapter to the larger group. But still very good even if no changes are made.	7/31/2025 5:03 PM
7	Like the jigsaw method. Also love this book--excited to listen to the whole thing! Thinking about how I can do some faculty development on it	7/31/2025 4:23 PM

1	Very informative session. Enjoyed how Pat focused on how technology is involved in learning. Interesting to learn about AI	8/1/2025 7:52 PM
2	AI sessions are really exciting (right now)!	8/1/2025 11:25 AM
3	Would just focus on AI portion of this. That part was excellent.	8/1/2025 11:10 AM
4	Would have liked more time practicing with AI tools specifically trying prompts for things that will make our jobs more efficient and additional examples of this	8/1/2025 7:55 AM
5	Great session. Session could benefit from less didactic component and more interactive component. Some of the terms presented were higher level and there was not much time for discussion or exploration of the terms, so they were of less value than the interactive/discussion components.	8/1/2025 7:51 AM
6	Tying the learning principles to the AI was really helpful & practicing with the AI was helpful	7/31/2025 6:37 PM
7	we didn't have enough time to properly do the activity. Wish there was more of a robust discussion of what type of technology is at our disposal before having us design a teaching strategy. the AI portion and activity were superb, however. Do not change it.	7/31/2025 5:03 PM
8	Super helpful session and helpful pre-reading. Definitely would keep this session and consider moving it to the afternoon as it is interesting, engaging and would be a good after-lunch topic.	7/31/2025 5:03 PM
9	Im not tech savvy but left feeling empowered to try some AI	7/31/2025 4:23 PM
10	Fantastic session. AI should be included in further years.	7/31/2025 4:20 PM

1	Would like more ob/gyn specific examples	8/1/2025 7:55 AM
2	Very helpful, loved hearing the examples used and what has worked well for your program.	8/1/2025 7:51 AM
3	I would love an example curriculum to take home & begin with! Or time to create some with other GME interested groups-- maybe we just need to make a "GMEC"	7/31/2025 6:37 PM
4	I realized I didn't do the pre-work as I should have... Perhaps more directions to help guide the worksheet?	7/31/2025 5:03 PM
5	Dr. O'Sullivan is always great, however I found this session a little less helpful given everyone's concerns with resources. Maybe giving groups time to come up with skills session ideas or sharing what they already do would make this feel a little more achievable.	7/31/2025 5:03 PM
6	Probably the least helpful session of the day. I think we all realize the challenges in skill training/sim. More of a problem solving bent might be useful--deeper diver into finding philanthropy, engaging industry, institutional barriers etc	7/31/2025 4:23 PM

1	Interesting to learn how to implement EPAs into education.	8/1/2025 7:52 PM
2	I'm still not sold on EPA for all residents. I think they make more sense for PGY4 evals prior to grad	8/1/2025 11:25 AM
3	For those in GME would be nice to hear examples of how EPAs have been or could be used in residency programs	8/1/2025 7:55 AM
4	Very good, loved the pre-reading which was very applicable to our level and made EPAs feel very feasible for delivery.	8/1/2025 7:51 AM
5	an interactive activity here would have been great!	7/31/2025 5:03 PM
6	This session was good, but because of where it fell in the day (mid-afternoon) it was harder to stay focused. Maybe starting the morning with this 30 minute session would be good...	7/31/2025 5:03 PM
7	Learned about nested EPAs!	7/31/2025 4:23 PM
8	would have liked a little more time with this	7/31/2025 4:15 PM

1	excellent talk and very relevant	8/1/2025 11:25 AM
2	Interactive portion was fun, but given the high degree of role play did not feel like we were practicing very useful skills (felt a little over the top). Loved the video examples and discussion around them.	8/1/2025 7:51 AM
3	The placement of this talk was interesting-- could be more impactful when discussing options for curricular dvlp earlier on or somehow tie it back to the EPA discussion? Or tie it back to the knowledge/AI discussion?	7/31/2025 6:37 PM
4	This was a memorable session with a great learning activity. Maybe spending some time sharing what our "rules" are would be helpful. I always like to hear what my classmates are already doing.	7/31/2025 5:03 PM
5	Always a good reminder!	7/31/2025 4:23 PM

1	Was a great day!	8/3/2025 10:02 PM
2	excellent programing and presentation content	8/1/2025 11:25 AM
3	Do not overlap this with CREOG Ed Summer meeting. Location is quaint, but for 2 days would be MUCH easier to have a central US location-- the jet lag from W to E coast is brutal, not to mention our poor HI friend	7/31/2025 6:37 PM
4	I really enjoy my ASL cohort and the faculty. Would have loved to have connected this with the CREOG retreat also happening right now.	7/31/2025 5:03 PM
5	small group facilitation would have been more useful from a debriefing a difficult situation perspective I think	7/31/2025 4:15 PM
